

Technical Data Sheet

Product SNAP'EM GEL

Code SNAPG-CH/CU/PE/AN/MXD

Document Ref: TDS-441/2/3/4/5

Date: 29/07/15

Version: 1

Description

Rodent lure in 4 flavours to attract rats and mice for trapping or monitoring purposes.

The Snap'Em gel rat and mouse lure has been specially formulated in 4 flavours to entice even the most reluctant of rodents to the trap. Snap'Em is simple to use and compatible with most rodent trapping systems.

Active ingredient Food flavouring: chocolate, curry, peanut and aniseed.

Inert ingredient Gel

Longevity Shelf-life of product is 3 years from manufacturing date (see label).

Packaging 30g dispenser with preloaded gel cartridge in packs of 12

Target pests: Rats e.g. Black rat, *Rattus rattus* and Brown rat, *Rattus norvegicus*
Mice e.g. House mouse, *Mus domesticus*

Application

Trap density Follow instructions from trap manufacturer.

Trap application Apply 1 g (pea-sized amount) to trapping device i.e. on snap-trap trigger, centre of glue board, within multi-catch traps, or inside rodent boxes. Do not apply directly onto toxic bait or use with other food attractants.

Where to use Suitable for food processing facilities and both indoor and outdoor use.

Storage

- Store in a cool, dry place
- Keep container closed or in sealed box.

Replacement and disposal

- Replace gel following trap capture or as required.
- If reusing trap, wipe used gel clean and reapply.
- Dispose of used trap/gel away from catch area so as not to interfere with trap activity.

Precautions

- Contains no toxicant
- Handle with care, avoiding direct contact. If contact occurs wash hands thoroughly.
